### VISAS

#### Consular Processing Update

- **Current Status:** Visa processing and appointment scheduling can still be a challenge in many locations, although improvement is being seen each month and in some places things are back to normal. However, it is crucial that any applicants needing visas **apply as early as they can, ideally 90-120 days in advance**. This will provide plenty of time to work through any potential issues.
- Applicants who cannot at first schedule an appointment in time for travel should request expedited appointments as needed. To do this, applicants must first schedule the earliest available regular appointment (even if beyond the date of travel), and then can re-enter the scheduling system and select the "Request Expedite" option. When requesting the expedite, the applicant should clearly explain in their message who they are and their reason for travel.

#### BEFORE ARRIVING:

1. Ensure passport, visas or ESTAs are current.
2. Take a COVID-19 test no more than 2 days of travel IF you are traveling **from China, Hong Kong, or Macau, or have been in these areas in the past 10 days, and are flying from one of these airports: Incheon International Airport in Seoul, Republic of Korea, Toronto Pearson International Airport in Canada, or Vancouver International Airport in Canada.**
3. For other foreign travelers, ensure you meet the criteria for being fully-vaccinated as described above or qualify for one of the [exceptions](#).
