SUSTAINABILITY CONSIDERATIONS

Please refer to the [IFSC Europe Event Organisers Briefing Notes for the Sustainability Award](#). They can be used as guidance to help your Infosheet show how you are taking sustainability seriously.

Sustainability is of a great concern.

The venue building is mainly made of wood including the supporting structure and the inside walls. Hemp based panels were used for thermal insulation. The building is low-energy classified.

As far as the venue is concerned recycling bins will be made available everywhere in the venue building and

local and hand-made products will be served on site in the catering area.

As far as the athlete housing is concerned, the main buildings are very closed, walking distance from the venue building, CIME. Local transportation. Urban transport network is also well developed allowing for collective transportation rather than individual solution.
